<b>Office Action Summary</b>	<b>Application No.</b> 10/540,894	<b>Applicant(s)</b> ADLER, NILS PETER
	<b>Examiner</b> ERIN B. SAAD	<b>Art Unit</b> 1793

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If no period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

#### Status

**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 5 is indefinite because it is unclear what is meant when the claim states that an anvil is "between an annular surface portion of which anvil and said one end of the horn are vibratingly pressed a wall of the container and said flange to each other". According to the drawings and specification, the flange is between the anvil and the annular surface portion. For the purpose of examination, the anvil will be pressing against the flange of the fitment, where the flange is between the anvil and the vibrating horn.

***Allowable Subject Matter***

3. Claim 5 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action. The Prior Art of record failed to teach or disclose an apparatus where the periphery of the ring being of a diametrical dimension less than a diametrical dimension of the recess.
4. Claims 8 and 9 are allowed.

5. The following is an examiner's statement of reasons for allowance: The Prior Art of record failed to teach or disclose the method where when the fitment fully received over the head and the horn not yet applied to the wall of the container there is a spacing from 0.2mm to 0.5mm between the annular surface portion of the anvil and the annular, radially outer portion of the flange.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Response to Arguments***

6. Applicant's arguments filed 9/19/2008 have been fully considered but they are not persuasive.

7. Regarding claim 5, the Applicant argues that it can be seen in the drawings that the annular surface portion is on the anvil itself.

As stated above, the claim as written remains unclear. It is not clear what is meant by an "anvil between an annular surface portion of which anvil and said one end of the horn are vibrantly pressed a wall of the container and said flange to each other".. The 35 USC 112 2nd rejection stands as written above.

***Conclusion***

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
